# Responding to Challenging Behavior Resource Pack

## Purpose of the Responding to Challenging Behavior Resource Pack

One of the essential components of RTI<sup>2</sup>-A + RTI<sup>2</sup>-B, Instruction and Intervention, includes establishing an environment for learning that ensures all learners can access and benefit from high-quality educational programming. The *Responding to Challenging Behavior Resource Pack* materials include resources that are meant to support schools and districts as they systematically develop schoolwide resources respond to challenging student behavior. The Behavior Definition Examples include definitions, examples, and non-examples of challenging behavior organized by which staff would address the behavior. These behaviors are organized by school-staff versus office-managed challenging behavior. The Discipline Process Flowchart Examples show visual examples of the steps school staff and administrators could take when students exhibit challenging behavior. The Office Discipline Referrals Form Examples provide templates that school staff could use to document a student's challenging behavior and seek support from school administrators. These materials can be used as a template to create materials to be used within a school's tiered support systems.
